Water Leaks

As you may be aware, there have been on-going water leaks into the car park, where water is continuously pooling.

Whilst we have been unable to locate the precise source of the leak, we believe this to be coming from over-flow outlets, possibly the boiler and water meters located within your flat.

We therefore write to remind you that you are required to arrange for your boilers and water meters to be inspected and carry out any repairs if necessary.

These repairs are required to prevent any damage to the structure of the building.

We thank you in advance for your co-operation.

Please do not hesitate to contact Steve Drake Operations Director on steve@hscpm.co.uk or Jeremy Claasen Building Manager on jeremyclaasen@westminstergreen.org
